

UCON310-I box is multi-tool interface converter box.

One box can be used as

RS485 half-duplex to isolated RS232 interface converter.

RS422 full-duplex to isolated RS232 interface converter.

RS232 to isolated RS232 isolator.

UCON301-I box is multi-tool interface converter box.

One box can be used as

RS485 half-duplex to isolated RS485 bridge box.

RS232 full-duplex to isolated RS422 interface converter.

RS232 to isolated half-duplex RS485 interface converter.

RS422 to isolated half-duplex RS485 interface converter.

RS422 to isolated RS422 repeater.

In RS232, RS422, RS485 application environment you just need one box to exchange interface with isolated feature for safety requirement.

.....

ULOG310-I and ULOG301-I box can support monitor feature in above interface converter function through USB connection.
