

Flexible vs. Cost

More Flexible:

RS232, RS422 and RS485 settable.

Less Cost:

Fix one interface for RS232, RS422 and RS485

Hardware method (DIP Switch) to set interface type

Is reliable.

Software method (setup) to set interface type

Is dangerous.

P118U card:

Universal PCI card for 8 serial ports per card.

A118 card:

PCIe card for 8 serial ports per card.

P3064 card:

Universal PCI card for 64 serial ports per card.

A3064 card:

PCIe card for 64 serial ports per card.
