

Safety vs. Cost

Ground isolated product

Is more safe and reliable.

Non-isolated product

Is less expensive.

**Serial communication monitor/recorder
will help you to enhance system's
reliability and safety.**

ILOG110 box:

Ethernet based monitored RS232 isolator.

ILOG101 box:

**Ethernet based monitored RS232 to ground isolated
RS422/RS485 converter.**

ILOG333 box:

**Ethernet based intelligent RS232/RS422/RS485
interface settable sniffer.**

***Don't change your application environment, we just
monitor your data flow in serial communication.**
